

NAVINDU DILSHAN MUNASINGHE

Associate Tech Lead

Colombo, Sri Lanka

navindudilshan60@gmail.com +94716491737

SUMMARY

Frontend-focused software engineer with **5+ years of experience** in designing, developing, and leading scalable web applications. Expertise in **React.js, Next.js, and React Native**, with hands-on experience in **Node.js, microservices, and relational/non-relational databases (MySQL, PostgreSQL, MongoDB)**. Skilled in **component-driven UI architecture, performance optimization, and Agile development practices**. Currently serving as **Associate Tech Lead**, mentoring teams, overseeing code quality, and driving technical strategy. Passionate about **building responsive, high-performance user interfaces** and leading teams to deliver impactful software solutions.

EXPERIENCE

- ❖ Associate Tech Lead, Overleap PVT Ltd

Feb 2025 — Current

Colombo

- Leading frontend development and architecture for complex web applications using **React.js and Next.js**.
 - Mentoring and managing a frontend team to ensure high-quality, scalable, and maintainable code.
 - Designing **component-driven, modular UI architectures** and planning Agile sprints.
 - Reviewing PRs to maintain **code consistency, performance, and best practices**.
 - Collaborating with backend teams using **.NET Core microservices, RabbitMQ, and caching strategies** for integrated system performance.
 - Contributed hands-on to complex frontend modules, optimizing **UI responsiveness, accessibility, and performance**.

Technology Stack: React.js, Next.js, MongoDB, MySQL, PostgreSQL, Redis, RabbitMQ
- ❖ Senior Software Engineer, Overleap PVT Ltd

Feb 2024 — Feb 2025

Colombo

- Led frontend development of scalable applications and guided UI/UX design decisions.
 - Implemented **interactive, responsive, and high-performance frontend components** across multiple projects.
 - Collaborated with backend teams on microservices, caching, and messaging workflows.
 - Oversaw PR reviews and provided technical guidance to frontend developers.
 - Contributed to architecture discussions for **component structure, code maintainability, and frontend performance**.

Technology Stack: React.js, Next.js, Node.js, Express.js, MongoDB, MySQL, PostgreSQL
- ❖ Software Engineer, Dev4s

May 2023 — Jan 2024

Colombo

- Researched and evaluated new technologies to support continuous improvement and contributed to architectural discussions.
 - Created and maintained technical documentation, including code-level and system design documents.
 - Performed code reviews, troubleshooting, and debugging to enhance application performance and reliability.
 - Designed and developed scalable full-stack applications across multiple projects.
 - Built responsive and high-performance user interfaces and backend services using modern frameworks.

Technology Stack: React.js, Next.js, Node.js, Express.js, Vue.js, React Native

❖ Associate Software Engineer, Dev4s Jul 2022 — Apr 2023
Colombo

- Designed, developed, and maintained scalable full-stack web applications.
 - Built and enhanced highly available backend services and RESTful APIs using Node.js and Express.js.
 - Improved application performance through code optimization, refactoring, and efficient data handling.
 - Developed responsive and user-friendly frontend interfaces using modern frameworks such as React.js and Next.js.
 - Collaborated with cross-functional teams in Agile environments to deliver high-quality software solutions.
 - Participated in system design discussions and contributed to technical decision-making.
 - Ensured code quality through testing, debugging, and adherence to best practices.
- Technology Stack:** React.js, Next.js, Node.js, Express.js, MongoDB, Vue.js, Nuxt.js, React Native

❖ Trainee Software Engineer , Dev4s Jan 2022 — Jun 2022
Colombo

- Contributed to the implementation of highly available and scalable backend modules.
 - Assisted in code refactoring and performance optimization to improve application efficiency.
 - Implemented responsive and user-friendly frontend UI components.
 - Participated in developing multiple projects using modern web and mobile technologies.
 - Gained hands-on experience in full-stack development across frontend and backend systems.
- Technology Stack:** React.js, Next.js, Node.js, Express.js, Vue.js, Nuxt.js, React Native

❖ Intern Software Engineer, EIS (Enuri Information System) Jun 2021 — Dec 2021
Colombo

- Assisted in project planning and sprint activities following Agile methodologies.
 - Supported the development and maintenance of web applications using modern technologies.
 - Identified bugs and contributed to improving application performance and usability.
 - Participated in developing backend functionalities and API integrations using Node.js.
 - Contributed to code refactoring to enhance readability, maintainability, and efficiency.
 - Assisted in designing and implementing responsive user interfaces using React.js.
 - Collaborated with team members and gained hands-on experience in full-stack development.
- Technology Stack:** React.js, Node.js, MongoDB

EDUCATION

- ❖ University of Sri Jayewardenepura 2019 — 2023
B Sc. Physical Science (Computer Science & Statistic), Colombo
- Specialized in **Computer Science and Statistics**, with a strong foundation in software development and data analysis.
 - Gained knowledge in **programming, algorithms, data structures, and database systems**.
 - Studied statistical methods including **probability theory, data analysis, and statistical modeling**.
 - Completed academic projects related to **web application development and data-driven solutions**.

SKILLS

Frontend Development	Backend & API Integration:
Databases & Caching	Software Practices
Messaging & Performance	Programming Languages
Collaboration & Leadership
